Heart Next to Mine

(DADGAD)

D
Summer sun and northern sea
Em
Sailing boats upon the reef
D
Took a cruise just you and me
G **A7** **D**
What a day to feel so free
Birds are flying all around
Boat is bobbing up and down
Sitting here without a sound
I'm so glad we left that town

G
Move a little bit closer now
A7 **D**
Want to hear your heart next to mine

And you let me hold your hand
Now you know I understand
Feelings deep within this man
It's something I did not plan
When you look into my eyes
My heart just lets out a sigh
And without you by my side
You know that I would just die
