

One is Left

C
Fire swept across the ridge
Em
And then up the mountainside
F
Flames were fanned by roaring winds
G **Am**
And the smoke blacked out the sky
F
They thought at first they were gone
C **Am**
Losing everything they had
F
Fire is a deadly beast
G7 **C**
It has no respect for man

F
One is gone and one remains
C **G7**
And there's nothing left to show
Am
One a blessing one a curse
G7 **C**
That's the way the story goes

Told them then that they should go
And leave everything behind
Flames are getting closer now
Got to go there is no time
It's a race against the fire
Time to cry and say goodbye
Turn around for one last look
If you stayed you'd surely die

Fire reached their street at night
There was nothing could be done
Flames are stretching to the roof
Burning hotter than the sun
Takes one house but leaves the next
Fire is the devil's seed
Has no thought for what it does
Takes everything then it leaves
